DETAILED ACTION

Applicant's amendments and remarks, filed 12/17/03, are acknowledged. Amended claims 1, 7, 8, 10-14, 18, and 21 are acknowledged.

Applicant's arguments, filed 12/17/03, have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from the previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claims 1, 7-14, 18, and 19 are herein under examination.

Claims Rejected Under 35 USC § 112, first paragraph

The following is a quotation of the first paragraph of 35 U.S.C. § 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

LACK OF WRITTEN DESCRIPTION

Claims 1, 7-14, 18, and 19 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time of the invention was filed, had possession of the claimed invention.

Art Unit: 1631

The specification does not appear to provide support for the word "succeeding" as stated in claims 1 (lines 7, 15, 18), 7 (lines 2, 3, 5, 7), 10 (line 2), 11 (line 2), 12 (line 2), 13 (line 2), 14 (line 2), and 18 (lines 7, 15, 17). Written basis is provided for a second experimental space (page 1, line 23), but not for the broadly mentioned succeeding experimental space in the claims. Because the introduction of "succeeding" lacks written basis for amended claims 1, 7, 10-14, and 18, as filed on 12/17/03, it is considered NEW MATTER. Claims 8-9 and 19 are also rejected due to their dependency from claims 1, 7, and 18. This rejection is necessitated by amendment.

All claims are presently rejected so that the restriction requirement will not be withdrawn at this time.

Conclusion

No claim is allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1631

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
